The greatest sound in the world is the Voice of God in the Mind of Christ and the believer's soul – the sound of silence atomic.

Everything has a beginning from the source that has no beginning.

The material world is evidence of the immaterial reality of God.

Evil is an arrogant intrusion and disruption in Creation.

God's significance makes our problems totally insignificant.

Temptation is a test of Christian Character. Succumbing to temptation becomes sin. Sin means lack of strength in Christian Character. Bible Doctrine strengthens Christian Character. We must constantly be tested and strengthened until we shed our fleshly nature of sin which occurs at physical death or the "Rapture."

The Word of God was always crystallized in the antiquity of eternity past.

God transforms and conforms the believer so believers can inform unbelievers. This is God's Plan.

Christ is meaning and the fulfillment of meaning.

To have knowledge of Jesus Christ and not know Him as Savior, personally, is to be in contrast to, in conflict with, and condemned by, the same Jesus Christ.

Wisdom begins with humility, faith and respect.

The fool says there is no God because the fool is a fool.

The pursuit of wisdom is a matter of life and death.

Wisdom pursues first.

It is impossible to learn with a closed mind.

Simple people have open minds.

Wisdom finds life, wisdom is life.

Wisdom laughs at the folly of folly.

Debt is bondage. Bondage is slavery.

Willingly, knowingly sinning is arrogance and disrespect of God.

Adultery is against God; against self; against spouse; against family; against society.

Confession is neither an excuse nor a license.

Sin has no license. Sin is the abuse of freedom.

All sin is against God and nobody has His permission.

No one has the right to willingly sin, confess it and think he has gotten away with it! Discipline is sure – God will make us, break us, or call us home, but He will never take back our great salvation. Each sin caused Christ to suffer even more agony.
