

CONVICTIONS

© C. S. Craig

The Tree of Christ's death became the Tree of Our Life. Adam is the only human being who became a sinner by sinning. As his descendents, all men, became sinners by birth. All men inherit Adam's sin-loving nature. All men can inherit Christ's Righteous-Loving Nature. The Grace of God is free to all who will believe because Christ paid for sin. He paid the highest price ever paid for anything in human history. The guilt of your conviction is convicting you.
